CAREER OBJECTIVE

Final-year B.Tech IT student with a strong interest in data analysis and visualization. Currently learning Python, Power BI, SQL, and Excel through hands-on projects. Seeking opportunities to grow in a real-world data environment while continuing to develop technical and analytical skills.

EDUCATION

B.Tech IT, Silver Oak University – 2022–2026 (Expected) | CGPA: 9.6/10

12th, P.G Junior College Bordi, Maharashtra Board – 2022 | 62.00 %

10th, Jadi Rana High School, Maharashtra Board – 2020 | 82.20 %

TECHNICAL SKILLS

- Python (Data Analysis), SQL (Learning)
- Pandas, NumPy, Matplotlib (Basic)
- Excel (Pivot Tables, Charts), Power BI (Learning)

PROJECTS

- FNP Sales Dashboard (Excel):
Designed an Excel dashboard with slicers, charts, and filters to track revenue, customer behavior, and top products.
Tools: Excel, Pivot Tables, Charts | [Github](#)
- COVID-19 Data Analysis:
Performed EDA and time-series visualizations on COVID data using Pandas, Seaborn, and Matplotlib.
Tools: Python, Pandas, Seaborn | [Github](#)
- Sentiment Analysis of Alexa Reviews:
Built an ML model to classify Amazon reviews as Positive, Neutral, or Negative using Python and Flask. CSV upload support and review dashboard. | Tools: Python, Flask, Pandas, Scikit-learn | [Github](#)
- Sales Dashboard (Power BI) :
Building a dashboard using the Superstore dataset to visualize sales, profits, and KPIs with filters and slicers.
Tools: Power BI, DAX (basic)

CERTIFICATIONS AND WORKSHOPS

- IBM SkillsBuild: Data Analytics using Python, CSRBOX – Jan 2025
- AI+ Developer™ Certification, AICerts – Mar 2025
- AI+ Prompt Engineer – Level 1™, AICerts – Mar 2025
- Workshop: Data Science using Python & Power BI, Silver Oak University – Aug 2024
- Deakin Global Job Readiness Program, Skill India Digital Hub – Jul 2024
